

# THREE BELLES MARINA

## 2011/2012 WINTER SERVICE CHECK LIST

### Inboard Motors and Stern Drives

Please check off work requested  
Time and materials \$98/hr.  
+ Parts

Customer Name \_\_\_\_\_ Boat Name \_\_\_\_\_

**Inboard Gas Motors - Winterize & Spring Start-up** Service package includes: flush and drain cooling system with non-toxic antifreeze, fog engine, change engine, gear oil or transmission fluid, grease fittings, spray with rust inhibitor, stabilize fuel and restart in the spring. Restart includes checking fluid levels, oil pressure, check for leaks, motor comes up to proper temperature at the dock and battery charging properly. *(Labor Only Parts are Extra)*

\_\_\_\_\_ Power Boat \$325 *(Per Motor)*

\_\_\_\_\_ Sail Boat \$235 *(Per Motor)*

**Generator Service Package** Includes: flush and drain cooling system with non-toxic antifreeze, check for leaks, fog engine, change oil & filters, change spark plugs if needed, spray engine with rust inhibitor & perform visual inspection of the generator. *(Labor Only Parts are Extra)*

\_\_\_\_\_ Winterize Generator \$150 to \$225

**Diesel Motors - Winterize & Spring Start-up** Service Package includes: flush and drain cooling system with non-toxic antifreeze, change gear oil, grease fittings, change zincs if needed, spray with rust inhibitor, stabilize fuel and restart in the spring. Restart includes checking fluid levels, oil pressure, check for leaks, motor comes up to proper temperature and battery charging properly. *(Labor Only Parts are Extra)*

\_\_\_\_\_ Winterize & Spring Start Diesel Motor T&M

**Stern Drives -** are very expensive and complex pieces of equipment and need annual maintenance for a long useful life. Service package Includes: removal of stern drive, inspect bellows, lube gimbal bearing, U joint and spline, drain, pressure test and refill, remove prop, lube prop shaft and reinstall, replace I/O gasket. *(Labor Only Parts are Extra)*

\_\_\_\_\_ Alpha/Bravo \$165      \_\_\_\_\_ Bravo 3/Volvo  
\_\_\_\_\_ Volvo/Cobra \$175      \_\_\_\_\_ Duroprop \$185

**Winterize Water Systems -** Package Service Includes: Flush & drain fresh and saltwater systems with non-toxic antifreeze. Does not include AC systems which are listed separately. *(Labor Only Parts are Extra)*

\_\_\_\_\_ LOA <than 21 '\$150      \_\_\_\_\_ LOA 27'-31' \$239  
\_\_\_\_\_ LOA 22'-26' \$199      \_\_\_\_\_ LOA 32' > T&M

**Cooling Systems -** on most inboards consist of three main components, a seawater pump, a thermostat, which regulates temperature and a circulating pump which pumps water through the engine. The two components that have the most common failures are the rubber impeller in the seawater pump and the thermostat. Most manufactures recommend that these parts be changed every two years.

\_\_\_\_\_ Change Water Pumps & Thermostats T&M

**Engine Manifolds -** on most inboard motors have a very tough job. They pass saltwater as a coolant through one set of passages and corrosive exhaust gases through another. Over time these passages clog or breakdown causing saltwater to flood into your motor which can cause major damage. Typical life expectancy of a manifold is from 3 to 5 years depending on use and they should be replaced before major damage can occur.
