### Outboard Engines

Please check off work requested  
Time and materials \$98/hr.  
+ Parts

Customer Name \_\_\_\_\_ Boat Name \_\_\_\_\_

**Outboard Engines - Winterize & Spring Start-up**

Service package includes: flush and drain engine, fog engine, change spark plugs if needed, change gear oil, grease fittings, change zincs if needed, spray with rust inhibitor, stabilize fuel and restart in the spring. Restart includes checking fluid levels, oil pressure, check for leaks, motor comes up to proper temperature and battery charging properly. *(Labor Only Parts are Extra)*

- \_\_\_\_\_ 2 Stroke Engine \$250
- \_\_\_\_\_ 4 Stroke Engine \$325 *(Includes Engine Oil & Filter Change)*
- \_\_\_\_\_ 25 HP & below T&M

**Winterize Water Systems - Package Service Includes:**

Flush & drain fresh and saltwater systems with non-toxic antifreeze. Does not include AC systems which are listed separately. *(Labor Only Parts are Extra)*

- \_\_\_\_\_ LOA <than 21' \$150      \_\_\_\_\_ LOA 27'-31' \$239
- \_\_\_\_\_ LOA 22'-26' \$199      \_\_\_\_\_ LOA 32' > T&M

**Fuel Systems** - Most boaters have their boat or engine mounted fuel filters changed annually. New 2 stroke and 4 stroke outboards, however, have a small high pressure fuel filter deep within the engine (inside the electronic fuel pump) that usually goes unchecked until it gets completely clogged. This condition steals power, causes your engine to stall or can even cause a lean condition and damage your engine. These filters should be cleaned or replaced every other year

\_\_\_\_\_ Clean or Change High Pressure Filter T&M

**Water Pumps** - are located in the gear case of your outboard. Their job is to supply cooling water to the upper power head and cool the engine. The thermostat regulates the water flow and controls the temperature. Both the water pump and thermostat work together to cool the engine and should be changed at the same time. Outboard manufactures suggest that these parts be changed every two years or 200 hours.

\_\_\_\_\_ Change Water Pumps & Thermostats T&M

**Generator** - Service Package Includes: flush and drain cooling system with non-toxic antifreeze, check for leaks, fog engine, change oil & filters, change spark plugs if needed, spray engine with rust inhibitor & perform visual inspection of the generator. *(Labor Only Parts are Extra)*

\_\_\_\_\_ Winterize Generator \$150 to \$225
