

Three Belles offers **moorings** at the marina in Smith Cove. Our moorings are for shallow draft vessels and offer a very low cost alternative to keeping your boat in the water. Smith Cove is very well protected yet only minutes from open water.

In addition to our own moorings, we also fabricate complete mooring setups and service our customers' moorings through our [Mooring Service Program](#) . Our pontoon boat is used to set and retrieve moorings throughout the surrounding Niantic Bay area.
