We are dedicated to the maintenance of your boat

We do our best to provide all the services you may need so you can concentrate your precious time on one thing – boating!

Please contact our knowledgeable full-time Customer Service Manager who will assist you to insure that you get the service you need. While we can't be all things to all boaters, we have worked hard to develop a preferred provider network so that you receive priority and the quality that meets our tough standards. With a 25 ton travel lift, a new Taylor Fork Lift and our pontoon crane boat, we have the flexibility to haul and launch a wide range of power boats, sailboats, moorings, docks, swim floats and swim lines. Our experienced yard and technical service staff are on site six days a week and no job is too large or too small.
